

I Will Trust in the Lord (2009)

a redstone arrangement

NOTE: Make it funky! Lead guitar may solo each time vamp is played; at first lightly (think B.B. King), then more demonstratively, particularly on the final vamp (think Jimi Hendrix, Stevie Ray Vaughan, Eric Clapton, etc.)

*** Outro notes: Rhythm section begins outro at mp. Lead singer teaches part to congregation. Band builds the volume gradually, but insistently through each iteration. When the congregants feel comfortable with the line, lead guitar must kick in with complete confidence and lift the bandstand. Be convincing!
